

Letter re school shoes for Sept 2023

Dear Parents/Carers

In advance of school commencing in September, we wanted to highlight the requirement for suitable black footwear to be worn during the school day by students as part of the school uniform items listed on our website. School shoes should offer adequate foot/ankle support, Vans/Converse/any shoes designed for sports are **not** acceptable for classroom use, nor are patterns such as leopard print, or platformed soles. We hope the guidance below will assist you in making appropriate purchases and thank you for your cooperation in this matter.

Examples of suitable footwear for use in school:

Examples from Deichmann Shoes	Examples from Asda, Tesco and Shoezone
	
	

Shoe has a thicker sole and heel, which can help support the students foot. There is a curved bottom which aids the natural shape of the foot. Shoe covers majority of foot so is fully protected.

Examples of unsuitable footwear are shown below with reasoning:
