

ECO

Eco-committee 2025-2026

By Zoya, Laya, Thea, Shaurya and Ananya!

Why is taking care of environment so important?

- Supports the **environment** for other animals and insects
- Prevent **extinction** of animals like rhinos, orangutans, polar bears, penguins, Amur leopards etc
- Provides clean air, **clean water** and safe food for us and our future generations

What is climate change and deforestation and what impact does it have on the environment?

- Climate change- where the earth heats up gradually over a long period of time
- Gases release into the atmosphere creating climate change
- Deforestation- where people cut down trees
- Endangers animals living in the trees because their habitats are being cut down
- Deforestation is the cause for 10% of global warming

What can we do as a school to help the environment?

Here are a few ideas on how we could help the environment:

- Use both sides of the paper
- Turn off the lights and whiteboards when they are not being used
- Pick up the litter and put it in the correct bins
- Improve the recycling in the servery
- Utilise the food waste bins correctly

These are only some of the ideas that we can do to help the environment. We all need to work together and strive for a better environment.

Upcoming events and ideas

March 3: World Wildlife Day - Poster designing competition

March 18: Global Recycling Day - Scavenger Hunt

April 18 to April 24, 2026 - Earth Week - Earth Week Quiz, Tote bag design activity, Plant parenting,

Earth Day 2026: Wednesday, April 22, 2026

June 5: World Environment Day

May 17: Endangered Species Day - Poster designing competition around an endangered species (pick your own)

Any ideas for events?

You've heard some of our ideas and plans for events, so maybe we can hear some of yours! This could be themed non-uniform days or fairs or competitions. If you'd like to share these thoughts with us now, please raise your hand! If you can't think of anything, you can always send one of us an email.

Q & A

Before we wrap up, do you have any other questions or ideas for us?

Thanks for listening!
